Subject: RE: Mowing our Data?

I believe he is starting the mowing today, so I really can't ask him to stop.

Subject: FW: Mowing our Data?

Hi Jeri,

I left you a voicemail message as well on this matter. Would you kindly ask Mr. Nelson if he could hold off on the "harvesting" of his hay until we have an opportunity to sample from those fields. We can do those areas that he will be harvesting first thing in the morning. We are quite concerned about this.

Gratitude,

Chan Pongkhamsing

John:

I have the same concern. Mowing will make plant identification a good deal more challenging.

Subject: Mowing our Data?

Chan and Paul,

Am I the only one concerned that if the land owner “harvests” the hay off of his pastures before we can conduct our wetland sampling that valuable data may be compromised per the objectives of our field inspection?
